

Automatically Remove Duplicate Files v.4.13 Released

Thursday, 22 February 2007

Was released Automatically Remove Duplicate Files v.4.13.

Differences, related to previous versions:

The most important improvement of new Automatically Remove Duplicate Files version - is easy to use "Main Configuration" wizard.

It is shown after program installation and running at the first time automatically. New wizard will let users to start using Automatically Remove Duplicate Files in seconds. It help to define:

- source directory (folder, files from which Automatically Remove Duplicate Files will process: sort, rename, organize);
- database directory (folder, to which files will be moved or copied after processing);
- action (what to do with processed files: copy them from source directory to database, or move);
- registration (for users, who still did not registered their Automatically Remove Duplicate Files product copy, may do it now in automatical mode).

Last product version may be purchased in our online store. All registered Automatically Remove Duplicate Files users can get it for free.
